10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) \* 

None of us were confident in storyboarding, so we decided to use an AI to create a storyboard after creating prompts detailing a normal storyboard. LTX.studio was the AI we decided to use to help us generate a storyboard and it helped us in that department. It also helped us generate a typical user story. Furthermore, we used AI to help proofread our content and fill in gaps.

11. List the name all the AI tools that you used for this submission \* 

LTX.studio, Deepseek

12. How confident were you in AI's responses that you received? \* 

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? \* 

Constant regeneration and we would proofread it and edit it and make changes when necessary.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.  
(optional) 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. \* 

Most of the written part was done by us with the help of AI to help fill in the gaps that may have occurred. There was no coding done in this milestone, so AI is not applicable to this assignment. To illustrate the storyboard, AI was entirely used to draw the entire sketches (LTX.studio), but detailed prompts were given to the AI to create the sketches in a manner we wanted.
